

Automated Phone Calling

The Cosmopolis School district may occasionally contact families through an automated phone call system. Automated phone calls may notify you of snow days or unexpected school bus delays, last minute cancellations, important school events (e.g. parent conferences), or other school announcements. Under federal regulation, you have the option to opt-out of receiving these calls. If you would like to opt-out, continue reading below. Alternatively, you may be able to reduce the number of calls you get by modifying your delivery preferences in [Skyward Family Access](#)

To submit an official request to have a phone number removed from our automated call list, please fill out and submit the online opt-out form available here:

[Opt-out Request Form](#)

Please note:

- Only one request should be submitted per phone number
- Requests may take up to 24 hours to be processed
 - Please contact the district office at (360) 532-7181 if you continue to receive calls
- **Opting out of automated calls does NOT remove a phone number from the emergency contact list**
 - Attendance (absence) calls classify as emergency calls
